

Speed • System • Synergy

An integrated solution for all your
marine, cargo-handling and logistical needs

• CATHAY • MANTRO • ALLIGATOR • ASTRO

On Time, In Control and Seamlessly Integrated

Today's business environment is dynamic and constantly evolving. Service providers need to keep abreast of the latest developments and continually feel the pulse of the environment they operate in. To do so, there is a compelling need to have a system that delivers speed while constantly staying on top of even the most difficult conditions, whatever the cargo-type or situation.

In this industry, experience is crucial. The Cathay-Mantro-Alligator-Astro Group of Companies has a long and successful track record of taking care of customers in the region. The Group had its roots in Singapore since 1980 when it started its stevedoring operations with Mantra Marine Services Pte Ltd, handling a comprehensive range of cargo that included timber, rubber and various primary commodities.

Today, the Group has been transformed into a multi-faceted service operator that provides a comprehensive range of services which includes stevedoring services, door-to-door logistics and project transportation, complete inland transportation solutions, international freight forwarding and NVOCC.

These services are carried out by four companies, each having its own sphere of specialisation:

- **Cathay Shipping and Freight Services Pte Ltd**
- **Mantra Marine Services Pte Ltd**
- **Alligator Logistics Pte Ltd**
- **Astro Pacific Pte Ltd**

Together, the Group offers a seamless, integrated solution to all our customers' shipping, transportation and logistical needs, whether it is the transportation of a 300 tonne generator to a remote jungle destination, or the most complex turnkey project involving transportation and logistics management to the interior of the hot desert.

The Group has the proven experience, the systems and the people to meet the very challenging demands of the industry in the region and beyond. Customers who trust us with all their shipping, transportation and logistical requirements can expect efficiency, timeliness and quality service, as reflected in our motto of Speed, System and Synergy.

**ASTRO
PACIFIC PTE LTD**

Your Partner in Freight Forwarding

Astro Pacific was established in 2002, and with dedicated staff commitment and strong customer service, the company grew into a global freight forwarding company within a short span of three years. It's wide network of agencies now include Far-Eastern ports around the region, Australia, South Pacific and European ports.

Astro Pacific's core business is to provide international freight forwarding and NVOCC consolidation to its customers. These functions have become very complex and specialised as the procedures link many parties in one continuous process. The choice of an efficient, knowledgeable Freight Forwarder/NVOCC means substantial savings in time and money and can have a significant impact on your bottom line.

Astro Pacific has two main divisions providing complementary services:

• Shipping Division

- The Shipping Division of Astro Pacific is adept at helping customers secure the best volume prices for their LCL cargo by efficient consolidation with the various shipping lines.
- Astro Pacific customers enjoy a guaranteed weekly LCL Groupage Service to all major ports around the world, and the shipping division are fully experienced in handling all types of cargo, including chemicals (hazardous and non-hazardous), machinery, raw materials, refrigerated goods or even oversized project cargo.
- Supported by a proactive customer service team and a global network of agents, our Multi-Modal Transport System ensures cargo is delivered door-to-door on time, every time.

• Container Freight Station Division (CFS)

- Conveniently located at Keppel Distripark, the CFS Division offers complete service under one roof. It not only handles all the stuffing, unstuffing, warehousing and distribution service for the Shipping Division, but also offers free transportation service to bring Export LCL cargo from the clients' premises to the Astro Pacific warehouse. This free service means you avoid the hassle of finding another vendor, saving you both time and money.

Cargoes are unloaded at our seven raised loading bays and segregated according to status and they are operationally ready at all times to ensure that customers' cargo is attended to immediately without delay.
